From The Chair:

Your club exists through the strength, commitment, and passion of members like you. Leading trips, volunteering at events like Paddling in the Park, teaching others new skills, and serving in appointed or elected offices of the club are just some of the ways that the members have built a club as respected, thriving, and enjoyable as Prairie State Canoeists.

The treasurer plays a vital behind-the-scenes role in the club. Donna Goldman, our current treasurer, will be stepping down this November at the end of her term. She's doing an excellent job and hers will be hard shoes to fill. We are seeking someone for this position who is passionate about the club. The treasurer should also be organized, skilled in using spreadsheets or databases, and have a general understanding of finance. Donna is ready to begin training someone for the position, so if you are interested, please let me know immediately.

Four positions on the board of directors come up for election this November. Joann Benedetto has several terms as a board member, as well as club secretary. She is also a certified instructor. Tom Lindblade, in addition to being a first-time board member, is also a certified instructor and our co-training coordinator. He's brought lots of great ideas about training and trainers to the board. John Shaw has served several terms as a board member and as an officer (including co-chair and chair). Ray Ziemer, too, has served several terms on the board, and regularly steps up when volunteers are needed to represent the club at events in the region. All of these talented individuals have given countless hours to the club, and we hope to have their service for years to come.

Board members attend the three regularly scheduled board meetings at the spring dinner, the fall dinner, and the trip leaders' meeting. Other meetings are occasionally held as needed. Board members also listen to the questions, concerns, and suggestions of the general membership, and bring these to the attention of the board. I hope many of you will consider becoming a board member, an interesting and rewarding role within the club.

If you are interested in joining the board this November or at some time in the future, please let me know.

Announcements

I am looking for five canoe paddlers who are interested in learning some *Rescue Skills on flat water and moving water*. The class is scheduled for **August 29** and, depending on water level, will probably be taught at the Janesville Dam. The instructors will be **Tom Lindblade and Allen Close**. Responses or questions can be sent to Steve LaPorte stevelaporte@earthlink.net; 630-665-5707.

The PSC Paddler needs Volunteers. I am moving to Naperville and am looking for a **new printing establishment and help to process the mailing** of the newsletter every other month. If anyone has resources/contact with a **business in the Naperville area** that can work with me to produce the bi-monthly publication (hopefully in the same booklet format) is asked to contact me **ASAP**. I would hope this new printer can handle processing the mailing as well, but just in case, if there are volunteers that would be willing to come to my home in Naperville to process (stamp, fold, tab and label) the newsletters for mailing (it should take only 1-2 hours) usually around the 15th - 20th of the odd numbered months, please contact me ASAP. This move will happen in early August and will affect the next issue of the PSC Paddler. Thanks! **Sherri Johnson; newsletter@prariestatecanoeists.org; 815-353-2924.**

The Website <http://www.terraserver.com/> is familiar to many of us for use of great aerial photos that are really handy for planning and taking paddling adventures. You can download free and/or cheap software to manipulate the Terra Server maps from <http://jdmcox.com/> and make your own maps for trips all over the country.

(Also see trip listing for Sunday, August 1—Join us for one or both days and/or camping overnight at Kankakee River State Park if there is enough interest and prior notice.) We will paddle from the IN/IL state line to Mومence. This is a really nice trip especially for mid summer and it is close to home. The view at the put-in is rather amazing. When you look upstream you see the Kankakee River Ditch in Indiana that was engineered by the US Army Corps of Engineers. When you look downstream, you see the natural curves and shoreline to the portion in Illinois. The stretch has some cottages on it but is usually quiet. **Directions:** The put-in is at the intersection of State Line Road and the River at the North side (DO NOT try to access this from the south—the bridge is closed!). You may access State Line Road from IL RT 17. Go south of RT 17 approximately 3 miles to the closed bridge at the river. There is a large gravel parking lot on the left. Carshift at 10:00 am; please call/e-mail if you plan to attend, especially if you want to camp. **Camping arrangements will only be made if advanced notice is given to leader.**

(Also see trip listing for Saturday, July 31—Join us for one or both days and/or camping overnight at Kankakee River State Park if there is enough interest and prior notice.) This is a really nice trip especially for mid summer and it is close to home. We will paddle from Bird Park in Kankakee to the Class D Campground or boat landing just west of Warner Bridge Road/Kankakee River State Park. This stretch is known for more rocks, gradient, numerous islands and some beautiful limestone outcroppings. We usually stop to have lunch at the picnic tables in the State Park and later hike the Rock Creek Canyon if there is interest. **Directions:** Take IL RT 17 or IL RT 113 to where they intersect on the west side of Kankakee at the Kankakee River. On the west side of the river, IL RT 113 (Wall Street) ends at IL RT 17. Go south on Wall Street to the very first driveway; turn left into Bird Park and follow the road to the left under the bridge (RT 17) to the boat landing. Carshift at 9:30am; please call/e-mail if you plan to attend-especially if you want to camp. **Camping arrangements will only be made if advanced notice is given to leader.**

Camping and canoeing in Michigan is beautiful. The rivers have clean spring fed challenging but forgiving rapids. This is a good opportunity for moving water skill brush up for experience paddlers who would like to work on their eddy turns, peel out and ferrying skills on the Peterson to Low Bridge section of the Pine. **Directions:** Take I-94 east to I-196 to US 131 to Highway 10 at Reeds City and go west to Baldwin where you take M37 north, about 20 miles, to the Paddlesports campground, on the west side just before the Pine River bridge. Please do not bring firewood. It will be available at the campground.

This river is part of the St Croix National Scenic Riverway. We will paddle from the County K landing below the Trego Dam to Riverside landing of the St Croix River. We will be river camping at campsites that are maintained by the National Park Service. The sites have pit toilets, fire rings and drinking water. The Namekagon flows an average of 3 miles per hour in this stretch. The river is rated as Advanced Beginner as it has lots of ripples and things to negotiate but isn't considered to be technical. We will do about 14 miles on Saturday, 12-17 miles on Sunday, and 4.5-7.5 miles on Monday. This shouldn't be too taxing and should allow us all to be setting

We will paddle two days on the Pine River (Elm Flats to Low Bridge), returning to camp after the first day. The Pine is a beautiful river with moderate to quick current and one stretch of Class I rapids. Tight bends and chutes, especially on the second day, require basic paddling skills e. g. draws, pries, etc. The Pine is part of the wild and scenic river program. However, because we have moved this trip beyond the permit expiration date, we will not be required to obtain permits; the parking fee will be in effect, however (\$5 for the weekend). We will camp at Pine River Paddlesports Center on the left (west) side of highway 37 just before you cross the Pine River going north.

Trip Reports

April 26-30, 2003, Quietwater Rivers of the Florida Panhandle - Eglin Air Force Base

Rain flirted with our hardy group of twelve, but didn't come down heavily until our last day, when four of us tackled Boiling Creek. Like other creeks on Eglin Air Force Base, its white sand bottom is filled with clear spring water. Pitcher plants and white and yellow water lilies were blooming. Titi Creek was a favorite as boaters enjoyed maneuvering through black gum trees in a freshwater swamp. On Turkey Creek, we found a 2" softshell turtle, gray with white spots, protruding eyes, and a short square snout, probably a recent hatchling not savvy enough to evade capture. When released, it took no time to swim to deeper water, to burrow into the protective sand, its long neck allowing it to breathe while hidden. Rocky Creek was a glorious, leisurely run down a pristine creek, with the added benefit of ending at our campground. Paddling the upper and lower Shoal River provided a contrast, with the upper Shoal revealing high banks of compressed, orange-tinted sand.

Paddling on Eglin is never dull and the roar of airplanes or choppers not distant! Around the bend on Boiling Creek, we discovered our lunch spot occupied with inflated Zodiacs, ready for an evening maneuver. The military presence didn't disturb us, however, anymore than it disturbs the birds, turtles, snakes, and alligators that make Eglin their home.

Getting around on Eglin presents something of a challenge; not all roads are on the map, nor are they easy to identify. As guides, we gratefully drew on the talents of Martha Szymoniak and Bill Hay of the West Florida Canoe Club. The readiness of all paddlers to pitch in and help made this trip a joy. Special thanks to our shuttle drivers: Mike Budrys,

Richard Delezen, Barbara Fitzpatrick, Stan Goldfarb, Art Mayfield, Martha Szymoniak, and Ron Thompson. **Carole Snowdon**

May 15-16, South Branch Elkhart River/Chain of Lakes, IN

The first day was a little on the chilly side. The river level was average; lunch stop very enjoyable. We saw Akobi spanning the along the river bank under the lunch stop bridge. Farther along on the trip in the mallards roost area we encountered 3 SandHill Cranes guarding their nests; quite interesting. Thanks to Erich Guenther for car-shifting. The second day on the Chain, the channels were loaded with geese and their young. It was beautiful weather on this day. **Jerry Emerson**

May 29-31, Wisconsin River, WI

This trip was aborted at the put-in due to high water and very ominous weather forecast for continuous severe storms throughout the entire weekend. You can never count on the accuracy of the weather forecast; but in retrospect, it turned out to be the right decision. **Louis, Ruth and Tyler Igyarto**

Jun 13, Lower Des Plaines River, IL

We surely were blessed with God's many blessings on this trip. High water can be a blessing or a curse. Several weeks of excessive rain found the Chicago area main runoff channel at just a delightful level for our use on this morning. While not quite high enough that we could *paddle* through the trees and into the backwater swamps which would be created at flood stage, we had no shallows to watch out for and a current which was just *almost* strong enough to counter the headwind. In regard to the headwind...it also was a Godsend as it kept the bugs totally at bay, which likewise, also

Trip Reports (con't)

makes for a very comfortable day. The rendezvous at the Isle a la Cache museum made for a totally delightful lunch stop. Beyond the island though not high enough to be worrisome or threatening, the water level was definitely conducive to delightful haystacks and absolutely no scraping through the stretch below Illinois 7 bridge or through Fishnet Rapids section itself. The haystacks through the latter section were *great!* Our only problem of any significance came at the take-out, and that was due to the water level. The eddies at the take out were greatly reduced in size and a little challenging to catch. Plus, with high water and high weeds which were greatly enhanced by so many weeks of heat and rain, blazing the trail up to the road was a little like an Indiana Jones movie. As usual, the abundance of wildlife, which is apparently thriving down in the Lower Des Plaines River valley, comes as a total inspiration to the heart. **Louis, Ruth and Tyler Igyarto**

Jun 12-13, Fawn & Pigeon Rivers

After the storms that went through the area on Friday Night, we thought that we may have problems on the river with down trees and flooding; just the opposite. We paddled the Fawn on Saturday, and had a great time. Although the Fawn was high with a good current, we had no problems. We did have a couple of deer cross the river in front of us. Saturday night the forecast as for more rain; which didn't come. The Pigeon did come out of

its banks, but we had camped on high ground to prevent any problems. Sunday canoeing the Pigeon was like canoeing a bayou. The river was completely out of the backs with more than one choice as to what direction to take. We did have to carry the canoes over a tree one time. Thanks to Mike Budrys and his agility, this was done with no problems. Thanks to all who took part. We all enjoyed ourselves. **Paul & Alice Clifford**

Jun 26, Eagle Lake

The Horicon Marsh trip scheduled for June 26 was canceled because of high water and dangerous water. I found a substitution and most of the people accepted. The water level and weather were fine. We saw some shore development and natural scenes 'too numerous to mention'. And the final trite comment is "A good time was had by all!" **Jerry Kolar**

Jun 27, Fox River (Yorkville)

Scenery, wildlife, side-trips, obstacles, points of interest, lunch stop details, etc. It was a great Sunday to be out on the water. We had never met all the 13 folks who joined us. They were all new or relatively new members to PSC. We enjoyed their company very much. The Fox was still high despite a recent dry spell so the trip ran faster than usual. We enjoyed a nice lunch stop at Silver Springs State Park. Special thanks to our car shifters Ben Auliff and Dan Benthall; and also to Lewis and Lance Johnson for being sweep. **John & Barb Shaw**
